

Data in the digital transformation of government

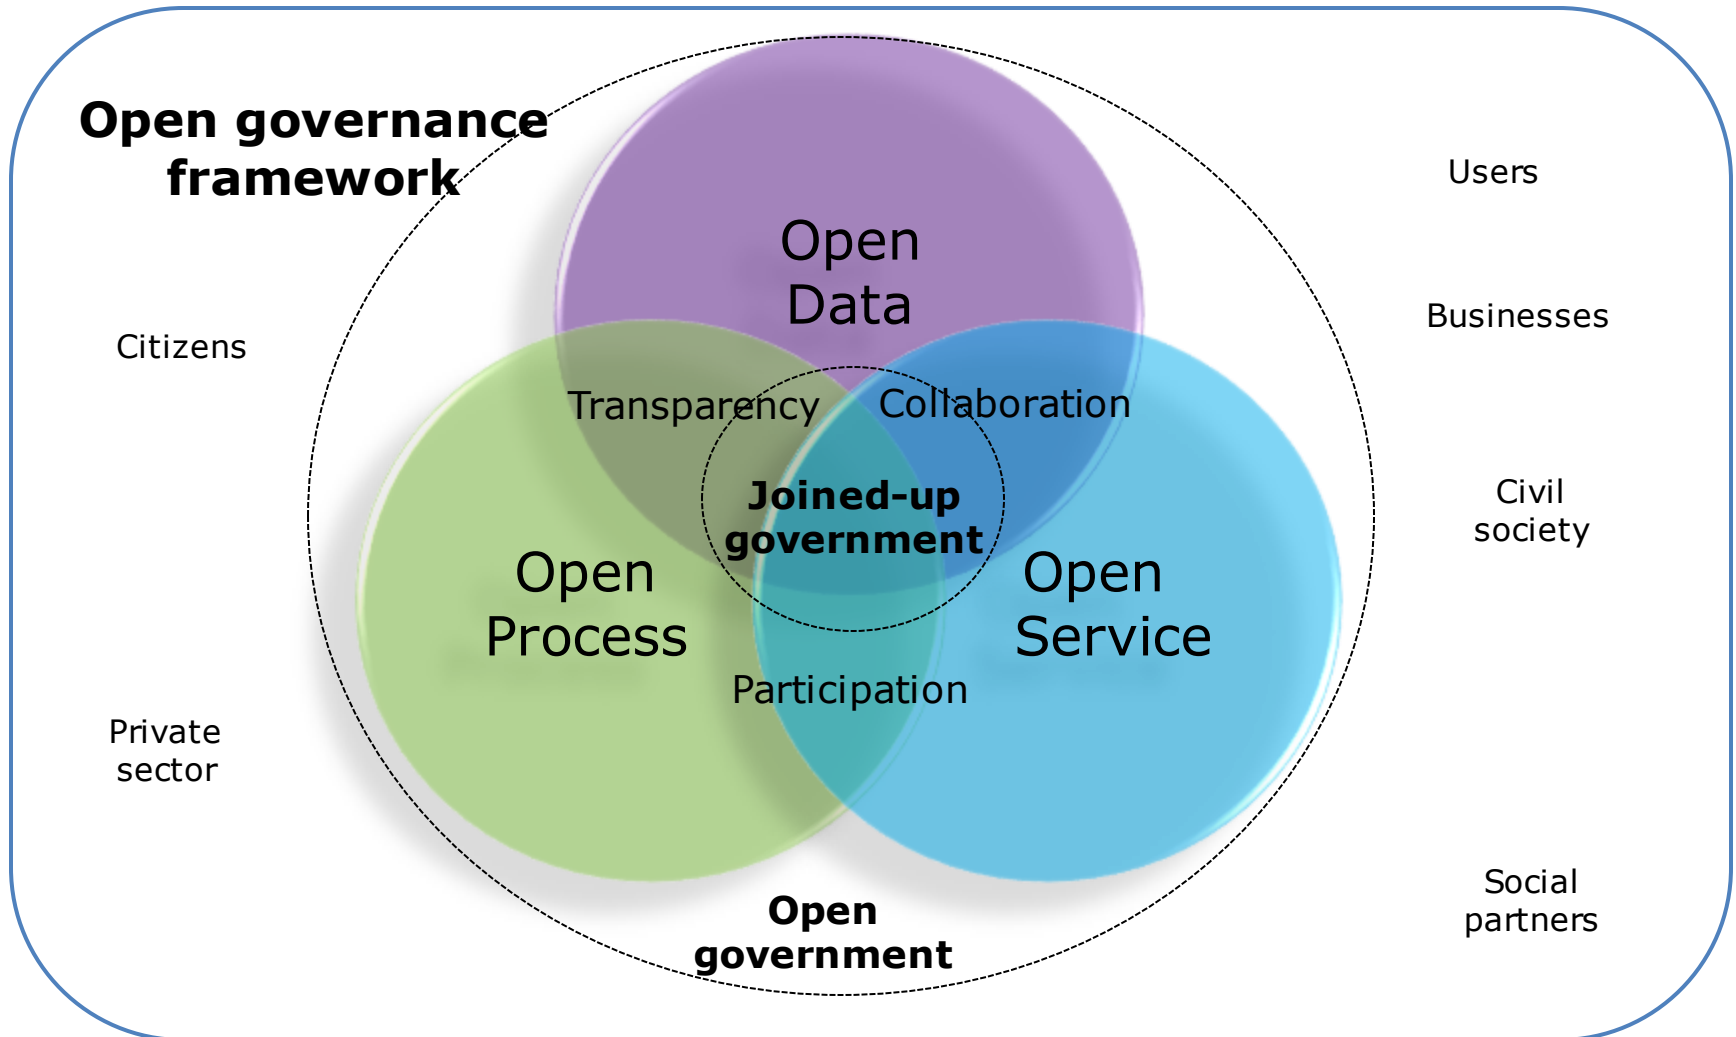

Workshop on Public Sector Data, 04/06/2019

Andrea Servida

DG CONNECT, European Commission

Unit "eGovernment & Trust"

Andrea.servida@ec.europa.eu

'Vision for Public Services':

<https://ec.europa.eu/digital-agenda/en/ict-enabled-public-sector-innovation-through-open-government>

- From silos to **joined-up and open government**

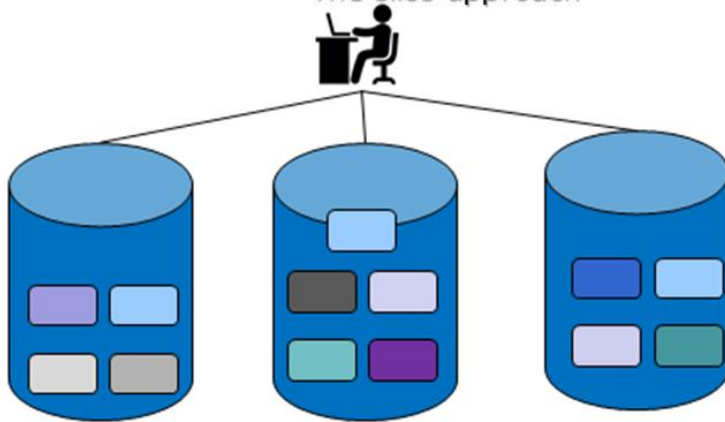

- From customer services to **customised services**

- From eGovernment to **(digital) government strategies**

Efficiency and effectiveness along with economic growth, societal equality, and good governance (transparency, integrity and citizen engagement)

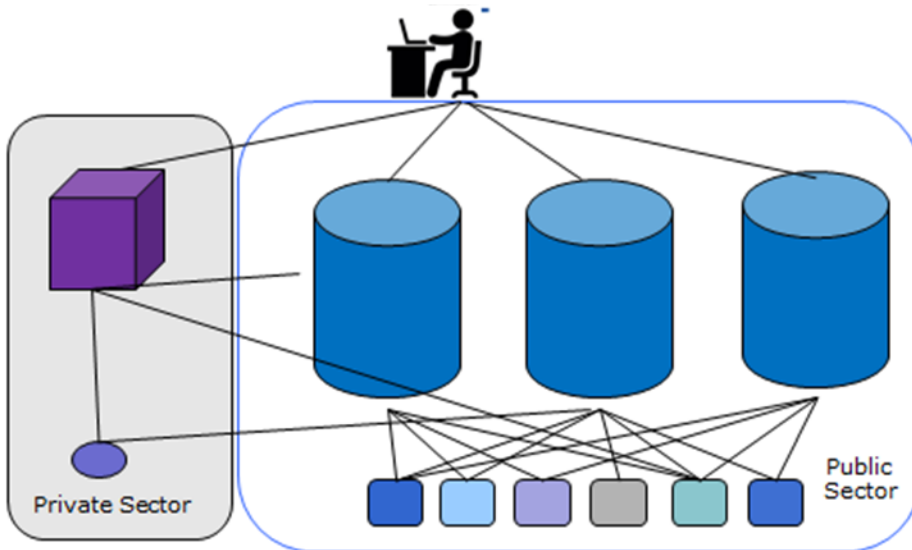

The silos approach

Breaking into fundamentals

Opening

**Between public
administrations**

**Across Member
States**

**Between PAs and
stakeholders**

Policy Framework

Policy priorities (Pillars)

'...more can be done to modernise public administration, achieve cross-border interoperability and facilitate easy interaction with citizens....' (DSM Communication)

eGovernment Action Plan 2016-2020

**Modernising
public
administration
with ICT, using
key digital
enablers**

**Enabling cross-
border mobility
with
interoperable
digital public
services**

**Facilitating
digital
interaction
between
administrations
and citizens /
businesses for
high-quality
public services**

**20 actions identified in this Action Plan
Further actions may be proposed either by the Commission or by
stakeholders, including Member States.**

European
Commission

Underlying principles

01 Digital by default

02 Once-only
principle

03 Inclusiveness and accessibility

04 Openness & transparency

05 Cross-border by default

06 Interoperability by default'

07 Trustworthiness & security

Provisions on Data

*"Opening the data and services between public administrations within and across borders will increase their efficiency and facilitate the **free movement of businesses and citizens.**"*

*"Opening public sector data and services to third parties, in full compliance with the legal framework for the protection of personal data and for privacy, can contribute to **growth and competitiveness.**"*

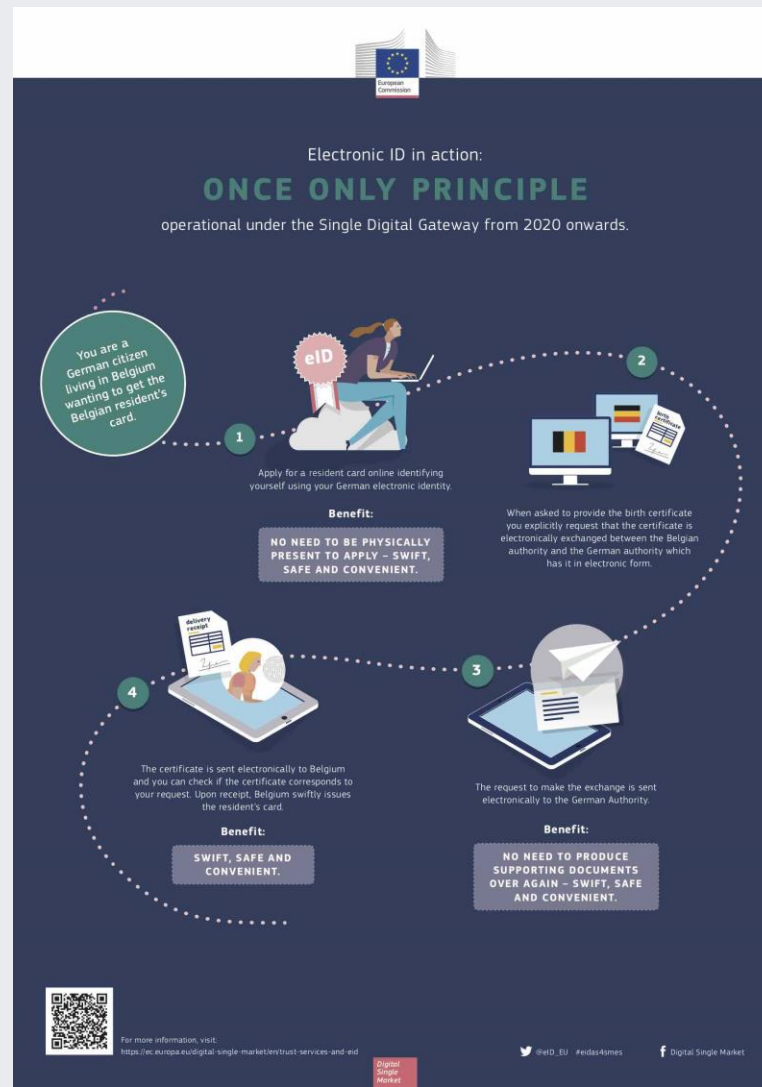

Once Only Principle

eGov AP for the The Once Only Principle

- public administrations should ensure that citizens and businesses supply the same information only once to a public administration;
 - public administration offices take action if permitted to internally re-use this data, in due respect of data protection rules
- **Introducing once-only options in digital public services by collaboration and data exchange, including with other countries**

eIDAS for the The Once Only Principle

Electronic eID operational under the Single Digital Gateway from 2020 onwards.

How to operationalise the OOP at the EU Level?

Horizon 2020

Is funding TOOP, a large scale pilot piloting a cross-border federated architecture. Other project(s) to follow suit.

CEF Building Blocks

The Connecting Europe Facility (CEF) building blocks have been identified as key enablers of the Once Only Principle in practice.

Better Regulations Toolbox (SWD2017 350)

The digital economy and society & ICT issues offers a "Digital Check" that emphasises the need for the implementation of OOP

eIDAS Regulation

The recognition of eIDs under eIDAS is also key for the cross border application of the "once only" principle, one of the main elements of the recently agreed Single Digital Gateway.

Digital Europe Programme

The first ever digital Europe programme running from 2021-2027 will promote the application of the OOP.

Structural Funds

possibility to use structural funds (in particular ESIF TO2 and TO11) for national / regional implementation of OOP.

Other actions supporting the
Once Only Principle and
implementation of the SDG:

ISA²

The SDG Architecture study

DG.CNECT.H4

The OOP metadata/data mapping study for the SDG

DG.CNECT.H4

A study to assess the readiness of Member States

DG.CNECT.H4

A new OOP H2020 Large Scale Pilot, in addition to the TOOP

MS Pilot

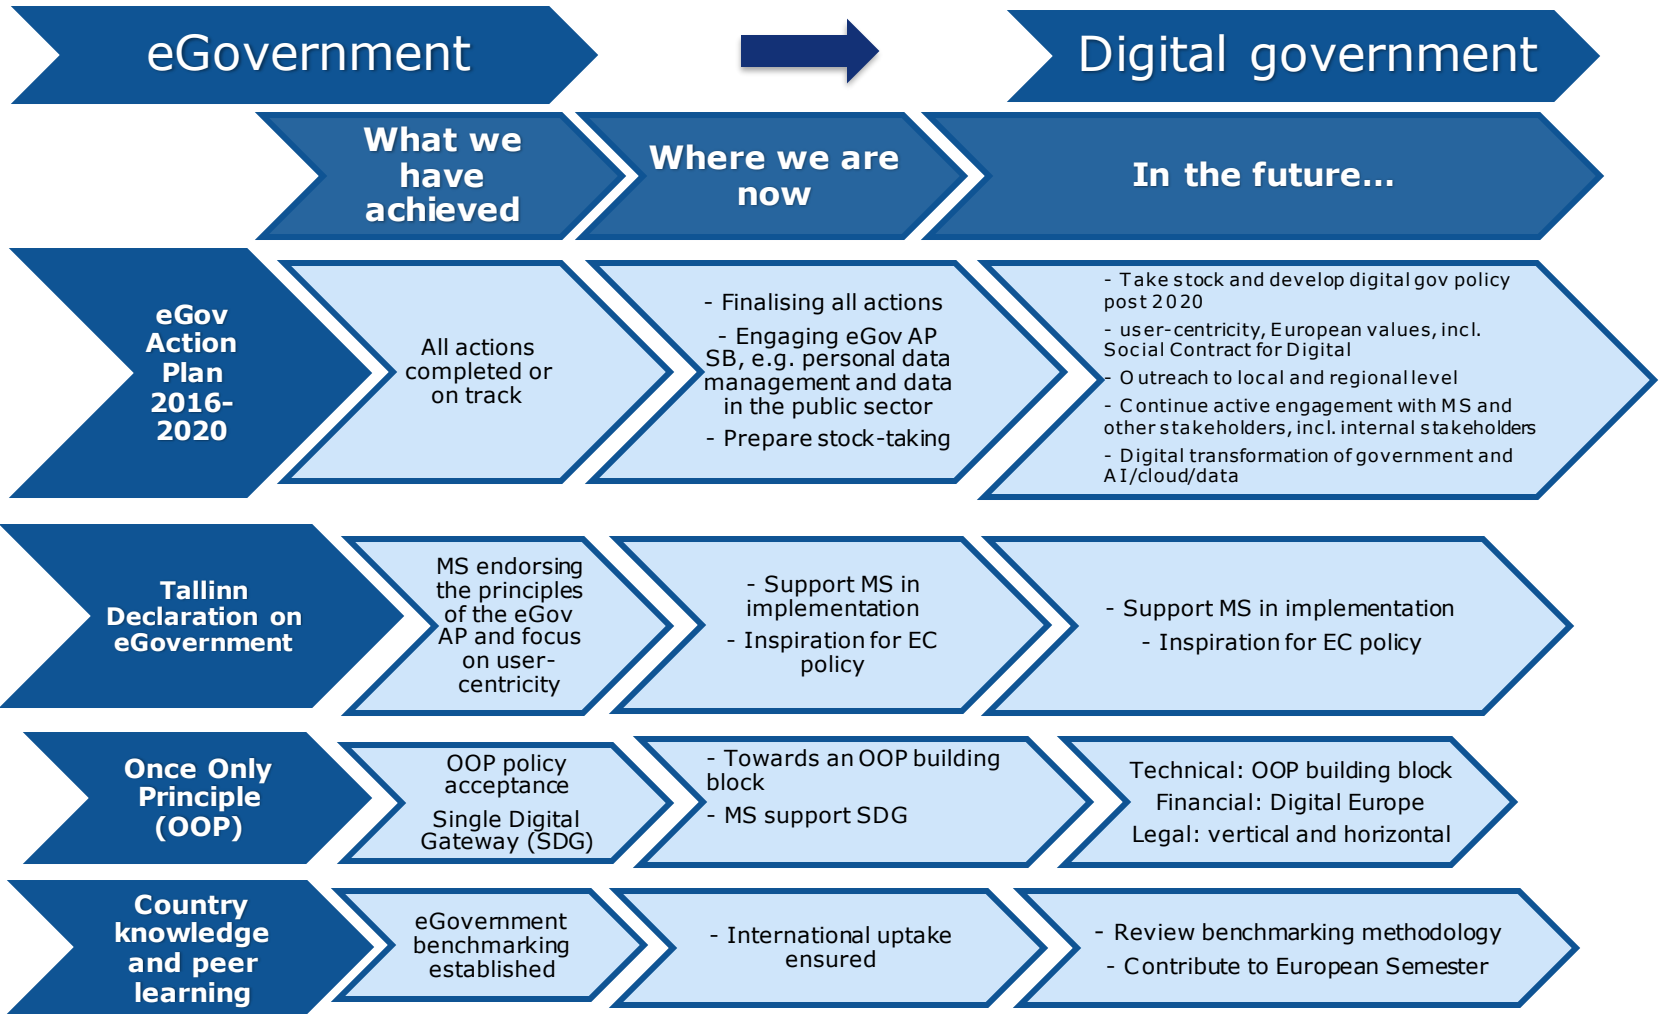

The SCOOP4C coordination action that will be ending soon

DG.CNECT & JRC

Study on the current use of APIs in Government

DIGIT

The digital solutions modernization plan part of the wider European
Commission Digital Strategy

eGovernment Action Plan 2016-2020 serves 'as a catalyst to coordinate public sector modernisation efforts' across the EU

COM (2016)179 final

Tallinn Ministerial Declaration on eGovernment 6 October 2017

We will in our countries: *commit to expand and deepen the exchange and sharing of good eGovernment practices and to speed up the digital transformation at all levels of government*

We will in the next five years (2018-2022) take steps [...] in our public administrations

<https://ec.europa.eu/digital-single-market/en/news/ministerial-declaration-egovernment-tallinn-declaration>

Commitments on data

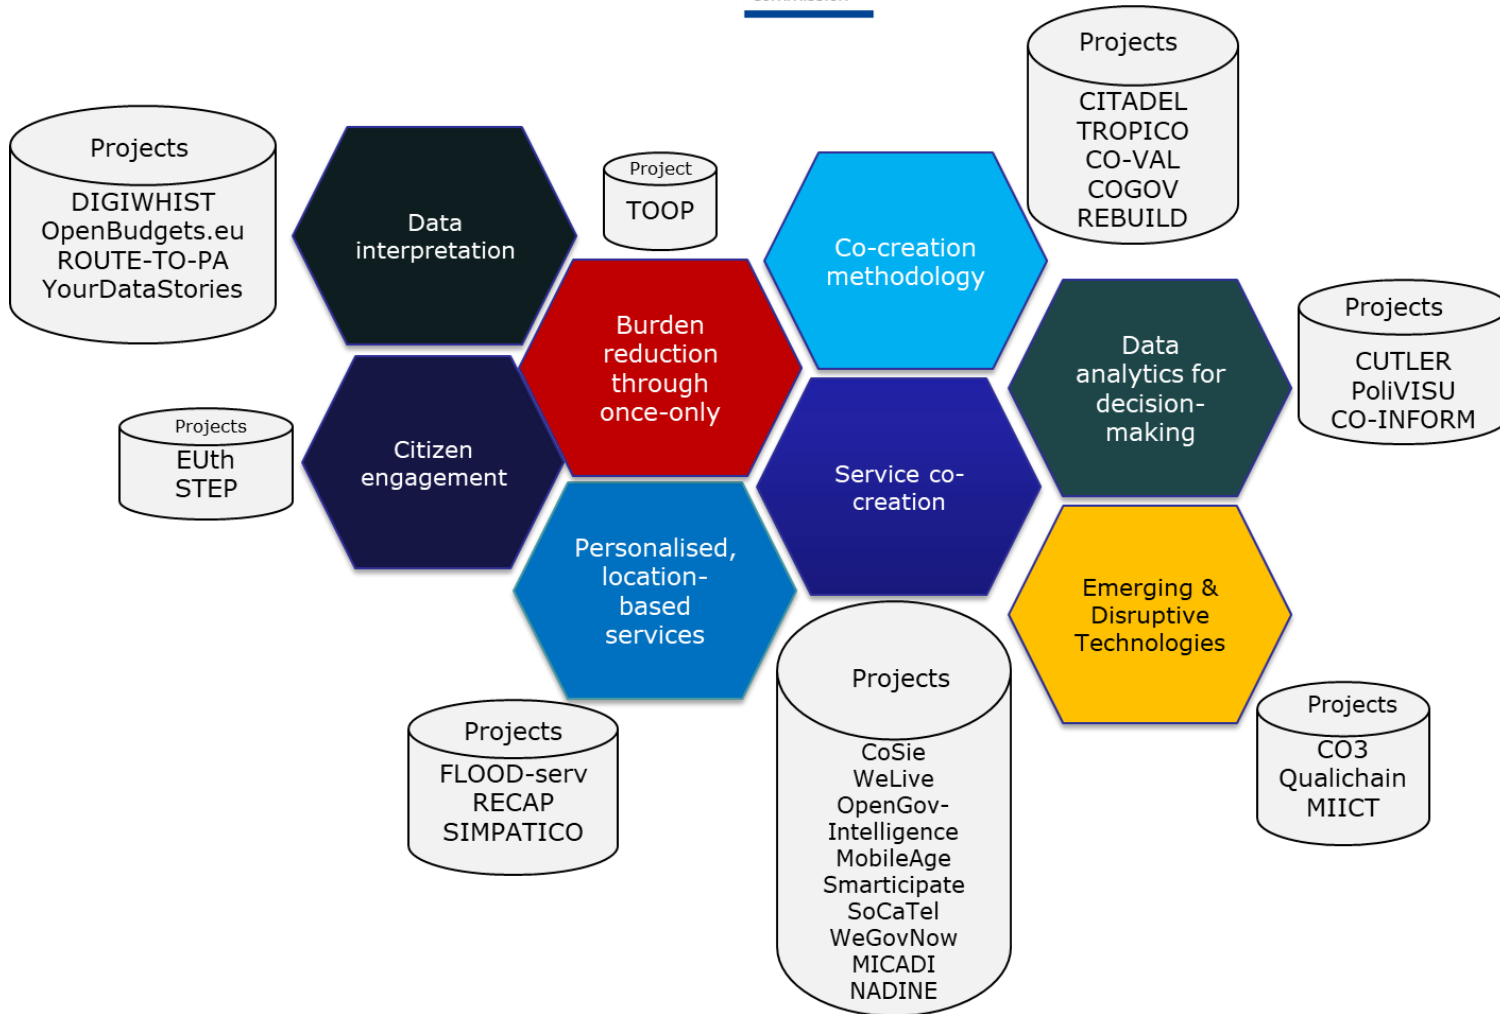

MS and EFTA states commit to:

- prepare and implement initiatives to widen and deepen the **use of data and analytics** (including big data) in our countries to move to **data-driven public services** and make full use of **data for better decision-making**;
- work to create a **culture of re-use**, including responsible and transparent **re-use of data** within our administrations;

Projects

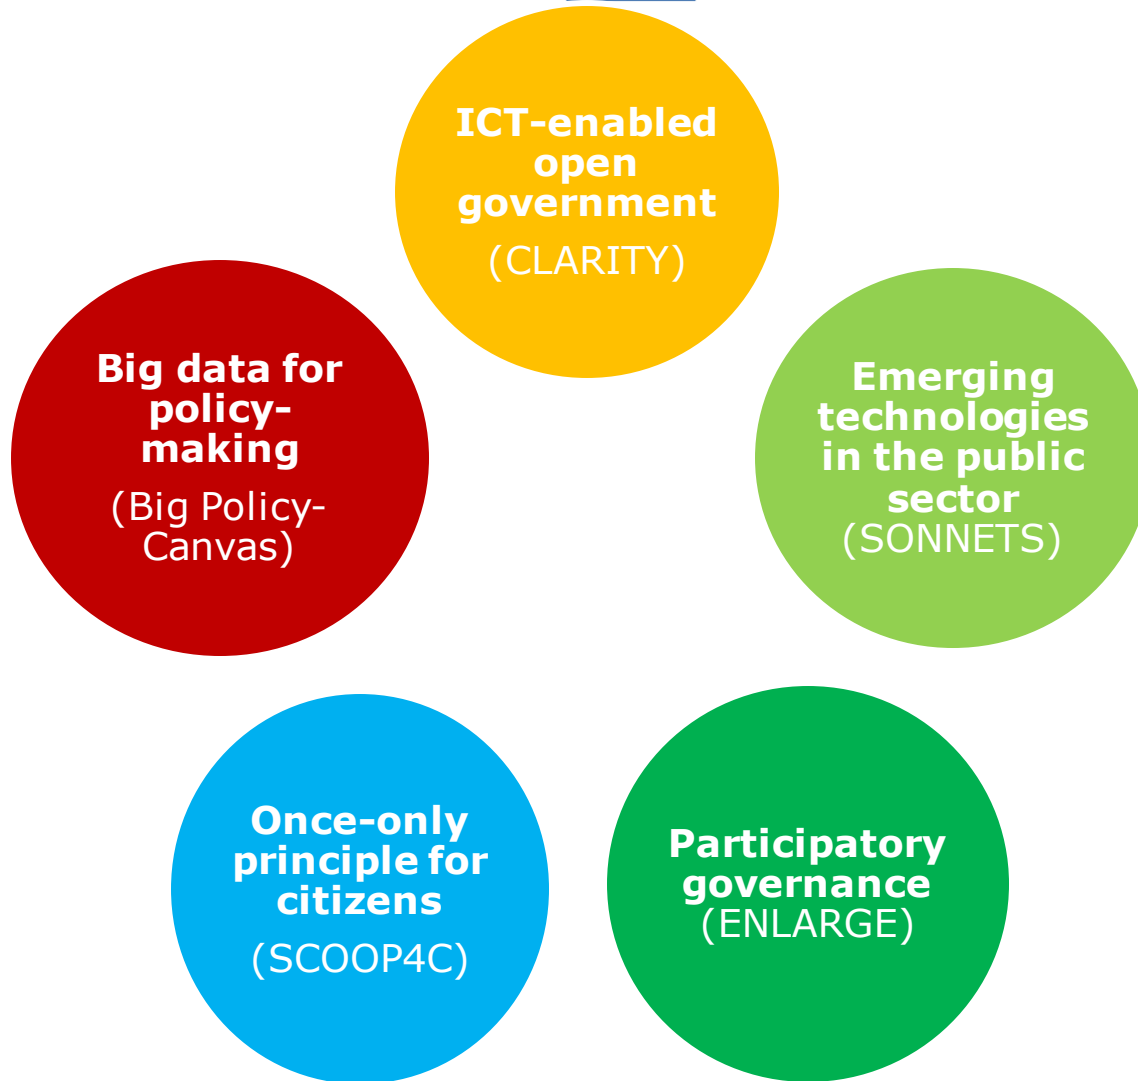

European
Commission

European
Commission

Coordination and Support Actions

BIG POLICY CANVAS

Big data-driven policy-making and policy-modelling

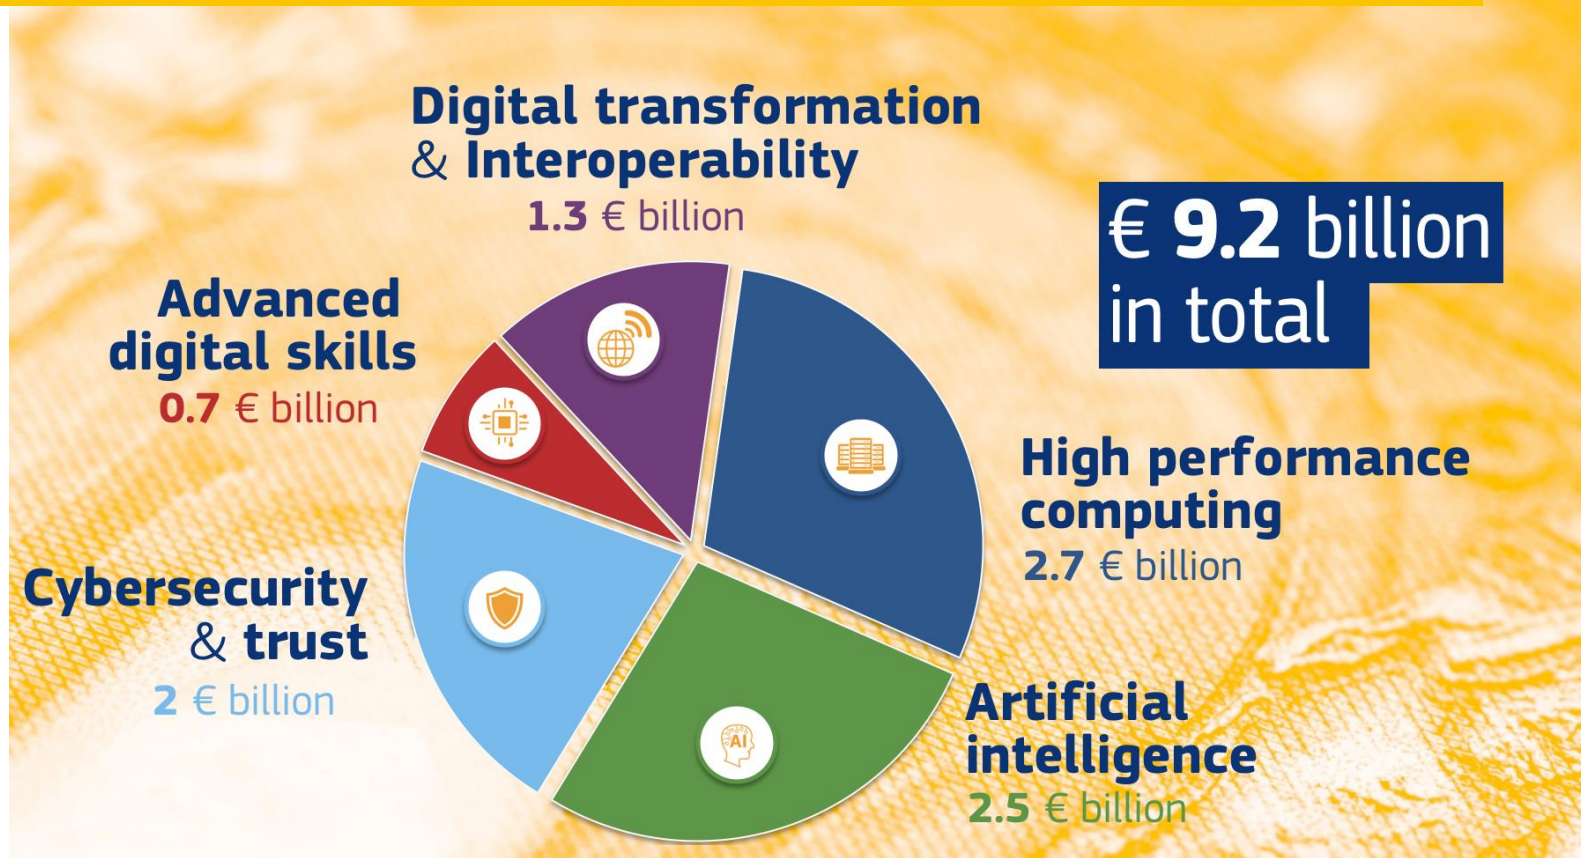

Transforming policy making through Big Data and Open Innovation (01/10/2017 , 24 months)

- identification and assessment of public sector needs and trends
- Analysis /grouping of emerging methods, tools, technologies and applications, particularly examined from a big data oriented perspective, that hold the potential to disrupt the way the public sector nowadays operates
- Roadmap for future research
- Consortium: ATOS, Nat. Tech. Univ. Athens, Fraunhofer, Lisbon Council
- www.bigpolicycanvas.eu

Digital Europe programme – what?

Reinforcing digital capacities. Ensuring their best use.

#EUBudget
#DigitalEurope

Deployment, use of digital capacities and interoperability

Support digital transformation of areas of public interest

Support digital transformation of industry

Uptake of new Technologies and ensure continuous capacity to adapt to fast evolving trends

- **Application areas:** public administrations, health and care, education, judiciary, transport, energy, environment, culture and creative sectors, etc.
- **Implementation:** direct management (partially with Executive Agency)

Investing in the future: **Digital Europe** Programme

€1.3 billion for **Deployment, use of digital capacities & interoperability**

Provide more **interoperable** public services

Bring digital technologies to **public sector** and areas of public interest

Support digital & related **technologies** for industry & SMEs

Offer **tests** and **pilots** to public administrations

Support and follow latest **tech developments**

Build up and strengthen the network of **Digital Innovation Hubs**
